

Get to know your neighbours

Creating a strong and connected neighbourhood is important in making your local community a great place to live. One of our many ideas to make that happen is the 'Get to Know Your Neighbour' initiative.

This initiative simply involves us collecting your contact information for the following purposes:

- To share with your immediate neighbours in Lake Treeby, including providing your information to them, so that you can begin talking about fencing, construction or just start to get to know each other.
- To send you information about community events, promotions, activities and other initiatives at Lake Treeby.

We respect your privacy and take our legal responsibilities for protection of confidential data seriously.

If you consent to us using, storing and sharing your information with your immediate neighbours in Lake Treeby for the purposes mentioned in the first point above, please fill out your details and sign the form on the back page.
